## Over 1,600 Rescued From Burning Navy Transport at Sea

### Severely Damaged Wakefield Successfully Towed to Port

Washington, Sept. 9.—(AP)—The naval transport Wakefield, formerly the liner Manhattan, was severely damaged by a fire at sea September 3, the Navy announced today, but more than 1,600 passengers and crew members were removed without loss of life.

The charred hulk of the 24,000-ton ship, one time queen of the United States merchant fleet, has now been salvaged and towed to an Atlantic coast port, a Navy statement said, adding that "preliminary reports" indicate that all the passengers and crew were safe. The Navy said several were injured.

The fire was described as being of "undetermined origin". It broke out on one deck level and spread swiftly throughout the ship. It soon became necessary to remove the more than one thousand passengers, many of whom were civilians, the others presumably being men in the naval service, the Navy related.

In addition to the one thousand there were, according to the vessel's normal complement, six hundred to seven hundred officers and crewmen aboard, commanded by Commander Harold Gardner Bradbury of Port Angeles, Washington, a Coast Guard officer.

**Thrilling Rescue**  
The Navy said the rescue was brought about in a thrilling manner by warships protecting the convoy in which the Wakefield was traveling to an east coast port.

A cruiser maneuvered its bow alongside the stern of the transport and a destroyer placed itself along the side. At these close quarters the passengers were transferred rapidly from the blazing ex-liner.

The crew remained aboard the ship fighting to bring the fire under control, the Navy account continued, but their efforts were unsuccessful and it soon became necessary for them also to transfer to the cruiser.

Aboard that ship they waited until the intensity of the fire had decreased somewhat and Commander Bradbury then led a special fire fighting party back aboard the transport and succeeded in bringing the flames under control.

**Delivered to Port**  
Meanwhile tugs and salvage craft had been summoned and when they arrived successfully began towing operations. They finally delivered the former Manhattan to port.

The vessel was built in 1932 for the United States Lines by the New York Shipbuilding Company at Camden, N. J.

The Navy said that at the time of her completion she was the largest trans-Atlantic liner built in the United States.

The Manhattan was taken over by the Navy in 1941 and renamed the Wakefield in accordance with the Navy's policy of naming transports for historic shrines of America, in this instance the birthplace of George Washington.

Commander Bradbury, 43, is a native of Neenah, Wisconsin. He was graduated from the Coast Guard Academy in 1920.

## THE WAR TODAY

By DEWITT MACKENZIE

### Wide World War Analyst

Those war-speeches by President Roosevelt and British Prime Minister Churchill impress one as being in the nature of cutting the allies' twenty-first birthday cake, that is, a signaling that the United Nations are verging on military maturity.

Both declarations displayed a tone of certainty—or so it strikes me—that could only be based on achievements which, although they lag far short of what they ought to be, still are leading surely to victory. Facts warranting such calculation aren't hard to find, for these points stand out clearly:

(1). American war production has reached a point where its tremendous weight is making itself felt. Its momentum is increasing steadily, for we are nowhere near our peak. Movement of our troops and equipment abroad pyramids. By implication President Roosevelt let it be known that more than half a million Yankee troops already have been sent overseas.

(2). July, August and thus far in September we've (knock wood) vastly reduced the depredations of the U-boats in the western Atlantic. That's to say, we have at least temporarily regained that control of the sea which is vital to the movement of our resources and men to the theaters of war.

(3). We not only have been holding the Japs, but have assumed the initiative with splendid success in several sectors.

(4). The blockade of Europe still holds tight—one of the greatest of the allied assets—and the axis strength is on the downgrade, due to lack of resources of all kinds. Hitler's war industries are slipping.

(5). Intensification of the American and British bombing of Germany is raising havoc with Hitler's factories and transports.

### Admonition

Somewhere in Australia, Sept. 9.—(AP)—General MacArthur told United States troops in the field today that all he asked of them in action was that they kill one Japanese apiece.

The general talked at length to officers on the fighting qualities of the enemy; they will meet eventually and counseled them to remember Napoleon's admonition that a soldier must never surrender except when he is unable to deliver any stroke against his enemy.

## State Officials in Quandry Over County Officers Retaining Funds

Springfield, Ill., Sept. 9.—(AP)—The flat refusal of Illinois county officials to pay into the state treasury about \$250,000 of mothers' pension tax funds, which remained unpaid when the state-federal aid to dependent children went into operation, left state officials in a quandary today.

Finance Director George B. McKibbin confirmed that the counties had balked at paying the money to the state, as required by the child aid passed by the legislature last year, but he said no decision had been reached as to possible steps to compel payment.

The money involved was that left in some county treasuries when the county-financed mothers' pension system was superseded by the state ADC program. Officially, the mothers' pension program went out of operation

## Congressional Ire Over Blunt Threat by FDR Subsidizing

### Leaders Start Writing Bill; Seek to Please Farmers, Labor

Washington, Sept. 9.—(AP)—An initial blaze of congressional opposition to President Roosevelt's demand for legislation to stabilize farm prices subsided somewhat today as administration leaders labored over a bill which they hoped would appeal to farm and labor groups alike.

Chairman Brown (D-Mich.) of a senate subcommittee which has handled previous price control legislation announced that a comprehensive measure would be introduced in the senate tomorrow and would be taken up by the full banking committee either Friday or Monday.

Brown, declaring both houses should act promptly and simultaneously on the President's request, said:

"While some may feel that he put the proposition rather bluntly by telling us 'You do it or I will,' and by putting a time limit on a rather slow moving congress, it must be remembered that action is vital and vital now."

There was little apperception on Capitol Hill that the President would move to stabilize prices by executive order on Oct. 1, provided congress had made good progress.

## Sinking of 460th Vessel Announced

By The Associated Press

Disclosure that another ship captain was taken prisoner by an axis submarine, the eighth known to have been so treated, was made today as the Navy announced the sinking of his American freighter last July in the South Atlantic.

The loss of the freighter brought The Associated Press total of announced neutral and United Nations sinkings in the western Atlantic since Pearl Harbor to 460.

The chief engineer, whose name, as well as the captain's was not disclosed, also was taken aboard the U-boat after the vessel was attacked several hundred miles off the east coast of South America.

One man was missing but 50 others were saved.

The torpedoing and sinking of two other vessels, an American freighter in the North Atlantic and a British merchantman in the Caribbean, was reported by the Navy yesterday.

## Nazis Throw Fresh Masses of Men at Stalingrad Today

### Reds Declare Defense Lines Before City Still Holding

By ROGER D. GREENE

Associated Press War Editor  
Reichsfuehrer Adolf Hitler, frenziedly driving his armies to capture Stalingrad, threw fresh masses of men and armor into the bloody assault today, but the Russians declared they were holding firmly on all sides of the imperiled Volga metropolis.

German field headquarters asserted in broad terms that tanked nazi troops had stormed and captured "dominating heights" in the fortified zone west of Stalingrad after stubborn fighting.

On Stalingrad's southern flank, the Russians said Red army mortar batteries and rifle units killed 350 axis troops in beating off four successive assaults supported by massed planes.

Front-line dispatches said nazi tanks and infantry, attacking under an umbrella of dive bombers, deepened a narrow wedge in the city's western defense yesterday.

"After a violent engagement, our troops retreated to a new defense line," soviet headquarters said.

Then, amid bitter all-night fighting, the Red armies stiffened and at mid-day today the soviet command indicated there had been no further withdrawals.

**Many Nazis Slain**

Striking out on the central front, soviet troops were reported to have dislodged the enemy from a fortified district west of Moscow, killed 400 Germans and captured prisoners.

Soviet dispatches said the struggle in the central Caucasus, 350 miles down the Baku railway from Rostov, apparently was stabilizing in the Mozdok region 50 miles northwest of the Grozny oil fields, and declared soviet troops had slaughtered 850 German officers and men in a battle along the Terek river yesterday.

In the western air war, waves of RAF bombers—perhaps 250 strong—attacked the Rhineland port city of Frankfurt in their sixth night raid on Germany out of eight nights this month.

Great fires were left raging in the city, the British air ministry reported. Seven RAF bombers were acknowledged missing.

Other RAF planes attacked targets elsewhere in the Rhineland.

**Egyptian Campaign**

On the Egyptian battlefield, British headquarters reported a continued lull in ground fighting while RAF planes attacked Field Marshal Erwin Rommel's long-drawn supply lines on the Salum-Matruh road, destroying trucks, fuel tank cars and staff cars.

Meanwhile, Vichy quarters said Washington's blunt rejection of the Vichy protest over American air raids on Nazi-occupied France had not yet been received officially.

These quarters asserted that the bombing of Rouen by U. S. Army Flying Fortresses—the immediate cause of the protest—was executed "at Stalin's orders."

In Washington, the state department disclosed last night that the protest, made personally by France's pro-German Premier Pierre Laval, was "immediately" rejected. Moreover, Laval was told in forthright terms that "military plants operated by or for Germany and other German military properties in France will be bombed at every opportunity in the future."

**RUPTURE LOOMS AGAIN**

Washington, Sept. 9.—(AP)—Rupture of United States relations with Vichy loomed again today on the diplomatic horizon.

This time it was Vichy's protest against American air raids over occupied France, and the United

## Authorities Seek Clues in Slaying of Social Workers

Tomah, Wis., Sept. 9.—(AP)—Information that a man wearing a soldier's uniform had cashed a check issued to Dorothy Baum gave Monroe county authorities today a clue to the rape-slaying of Miss Baum and Miss Neil John Pietrangeli, state welfare workers.

Miss Baum, 32, was found mortally wounded on a road eight miles east of Tomah, Tuesday morning. The body of Miss Pietrangeli, 30, was discovered later in dense brush 100 feet away. Both had been stripped of their clothing and shot twice. An autopsy revealed both had been raped.

Sheriff Hallett Jenkins said that Elmo Blado, proprietor of a Tomah filling station, told him that a man in uniform drove into his station in a convertible coupe, purchased gasoline and tendered a \$10 check in payment. The check, Blado said, was issued by the Kenosha county welfare organization, to Miss Baum and was endorsed with her name.

## \$821,052.60 of Bonds Sold in Lee County During Summer Months

During the months of May, June, July and August, total U. S. War bond sales in Lee county were \$821,052.60, it was announced today by General Chairman Oliver Gehant of West Brooklyn. Of this total the several agencies in Dixon handled \$503,190.30, and the remaining agencies throughout the county, \$317,862.30.

Issuing agencies in the county are the post offices in Dixon, Amboy, Ashton, Compton, Paw Paw, Franklin Grove, Sublette and Steward, also all of the banks of the county and the Dixon Loan & Building Association and the Rock River Production Credit Association. The several post offices in the county, not listed above, have U. S. War Stamps available for their patrons.

The quota for September is \$154,100.00 for the county to be used to support the Lee county boys who are now in their country's service. Bonds purchased provide equipment for these men of the several branches of the armed forces and provide a medium through which the citizens of the county may cooperate.

## One Dies in Carolina Munitions Explosion

Carrboro, N. C., Sept. 9.—(AP)—An explosion today at the National Munitions Corporation plant here killed at least one man and injured several others, none of whom was believed hurt seriously.

The thunderous roar, which occurred in a small mixing house of the plant, rattled windows in this little community and in Chapel Hill, the seat of the University of North Carolina, a mile away.

Officials of the plant made no announcement.

Carlis M. Rice, 27, of Durham died in a Durham hospital shortly after the blast, which occurred about 5:45 a. m.

## Justice Stone Will Become Supreme Judge of State Fourth Time

Springfield, Ill., Sept. 9.—(AP)—Justice Clyde E. Stone of Peoria, whose 24 years on the bench make him the dean of the Illinois Supreme court, will become chief justice of the tribunal next Monday when the court reconvenes for the September term.

Justice Stone's election for a year's term as chief justice will be in accordance with the custom of rotating the post among the seven members of the court. He will succeed Chief Justice Loren E. Murphy.

Elected first in 1918 and re-elected twice, Justice Stone has served as chief justice for three previous terms.

## Rommel Suffering From Malady; To Be Relieved of Command Is Report

Ankara, Sept. 8.—(Delayed)—(AP)—A member of Wendell L. Wilkie's party visiting Turkey, who asked not to be identified by name, said today that German officers captured in Africa had disclosed that the German Field Marshal Erwin Rommel is suffering from some malady and may be relieved of his command.

The nature of the supposed disease was not stated.

These officers, captured in the recent tank battle in which Rommel's forces suffered serious losses, were quoted as saying the field marshal either has been returned to Germany by air, or is awaiting relief by some other commander.

## Senate Committee for "Victory" Tax on Earnings of \$624

### Votes for Levy of Five Per Cent on Annual Incomes Over That

Washington, Sept. 9.—(AP)—The senate finance committee reaffirmed today its adoption of the 5 per cent Victory tax on individual earnings over \$624 a year, and also approved a proposal for a joint congressional study of compulsory savings to aid in financing the war.

Chairman George (D-Ga.) said it was contemplated that a committee consisting of five senators and five representatives and including Secretary of the Treasury Morgenthau would be set up to make the study and report to congress by next January 11.

George said the finance committee felt that for "obvious reasons" a thorough study should be made of the possibility of obtaining additional war financing from individuals through some rounded form of compulsory savings.

In approving again the 5 per cent Victory levy, the committee rejected three substitute proposals made by the treasury at the committee's direction. These proposals would have raised about \$2,500,000,000 yearly by broadening the base of the income tax and increasing rates.

**Deadline Unchanged**

In approving the special levy, George said the committee decided to leave the deadline for filing regular income tax returns, which would include Victory tax returns, at March 15. Previously, the committee had planned to move this date up to January 15.

Adoption of the new levy, he said, would eliminate a house-approved provision in the revenue bill calling for the advance collection of income through a 5 per cent assessment against wages, interest and dividends, less specified exemptions.

Senator Radcliffe (D-Md.) said the treasury officials had submitted three complicated schedules to the committee involving lowering of present income tax exemptions and increases in rates.

The plan apparently most favored by the treasury, he said, combined rate increases with a reduction in exemptions to \$400 for single persons, and \$800 for married couples, with \$200 credit being allowed for dependents.

## Allies Start New Campaign on Subs

London, Sept. 9.—(AP)—Official circles said today a new allied anti-submarine campaign was under way, aimed at subjecting each Nazi underwater raider to constant attacks from the surface and the air during the whole time it is at sea.

"We must destroy U-boats faster than Germany can commission them," a source said. "We are building up an offensive against the U-boat which we hope will produce the results we want."

He termed fantastic a proposal to divert all shipment of war materials to air freighters as a means of defeating the submarines.

"Certain specialized equipment can and has been transported by air," he said, "but the great bulk of the material must go by ships".

The present predicament of Field Marshal Erwin Rommel in the North African desert was attributed in part to the difficulties besetting axis shipping in the Mediterranean.

The source said the Germans and Italians had lost half the vessels available in the Mediterranean since the war began and "probably will not be able to replace" more than a quarter of them.

## Army Plane Crash at Newark Tuesday Noon Kills Eight

Newark, O., Sept. 9.—(AP)—Salvage workers cleaning up the wreckage of a two-motored bomber that crashed into an apartment house found today the remains of what they believed to be a ninth victim.

Eight bodies—six occupants of the plane and two women civilians—already had been recovered from the debris of yesterday's mid-town crash. Neither Army nor local authorities were able to establish at once identity of the last body.

City firemen, directed by Army officers investigating the accident, early today found the body of Mrs. A. L. Weston, 62-year-old widow, deep under debris of the two-story structure which she owned. Mrs. Dollie Campbell, returning from a shopping trip, was killed while walking by the building.

Salvage workers also removed from the wreckage the bodies of two of the plane's occupants, Lieut. Russell E. Newlin, 30, of Indianapolis, and O. A. Pecon of Dayton, O., civilian crew chief at Wright Field.

One wing broken, the bomber hedge-hopped over Newark's business district yesterday noon, damaged a residence and struck the Weston building, which was demolished as a gasoline tank ripped loose from the plane and exploded.

Seconds earlier, two men leaped from the low-flying bomber and plummeted to death when their parachutes failed to open.

At Wright Field, Dayton, where the ship took off, its occupants were identified as Col. Douglas M. Kilpatrick, 33, of Houma, La., pilot Lieut. Lawrence S. Lawver, 29, of Freeport, Ill., co-pilot; Private Charles Watson and Corp. R. A. Arens, 21, both of Dayton, and Lieut. Newlin and Pecon.

**CRASHES IN FLORIDA**

Pensacola, Fla., Sept. 9.—(AP)—Ensign Thomas W. Simonds, of Sparta, Ill., was one of three men killed in a Navy patrol bomber crash in East Bay near here Monday. Pensacola naval air station public relations officers have announced.

Simonds was the son of Mr. and Mrs. I. W. Simonds of Sparta, Ill., and also is survived by his widow, who lives in Pensacola.

Sarasota, Fla., Sept. 9.—(AP)—Lieut. Harold R. Purdy of Havana, Ill., was one of two pilots from the nearby Army air base killed

## Ohio Steel Mills to Draft Workers Soon

Youngstown, O., Sept. 9.—(AP)—Youngstown's steel mills will draft workers within two months because of a labor shortage, a U. S. employment service official predicts.

Herbert R. Weller, manager of the employment service office here, reported yesterday the occupational questionnaires of selective service registrants were being used to recruit war plant workers.

About 500 cards are being sent out daily to deferred registrants asking them to report to the employment office and take war jobs if they already are not engaged in essential work, he added.

## Citation

General MacArthur's Headquarters, Sept. 9.—(AP)—An American lieutenant who deliberately rammed his plane into a Japanese fighter to save the life of his quadripart commander was one of nine officers of the U. S. Army Air Forces honored with the Distinguished Service Cross today by General Douglas MacArthur.

He is Second Lieut. A. T. House of Long Beach, Calif., who not only destroyed the enemy fighter by crashing his left wing against its cockpit but was able to break away and, though his plane was crippled, return to his base and land safely.

Seeing his commander in distress and in direct line of enemy shell and machine-gun fire, Kern jumped out of the tank and dragged him to safety.

The story was related by Private Harold Frank, a loader of a General Grant big gun who hails from New York's Bronx. He saw it happen.

"Boy oh boy, did I load that gun that first night," Frank exclaimed of his part in three days of fighting.

"We put them in and shot them out just as fast as humanly possible for hours without a stop and we got at least one Jerry and hit another that I know of."

## Slow Up Nipponese Attempts to Cross Owen Stanley Range

### Australians Wipe Out 700 Enemy Troops in Milne Bay Sector

General MacArthur's Headquarters, Australia, Sept. 9.—(AP)—Allied forces have slowed up Japanese troops in the steep and rocky approaches to "The Gap"—a mountain pass 8,000 feet up on the Owen Stanley range about 50 miles from the important allied base at Port Moresby—and Australian troops have practically destroyed 700 Japanese troops in the Milne Bay area of New Guinea, General Douglas MacArthur announced today.

While MacArthur's forces were thus tightening their grip on this northern bastion of Australia in the face of determined Japanese infiltration, allied bombers and torpedo-carrying planes attacked Japanese warships supporting the invaders and probably damaged a destroyer.

Two Japanese warships, a cruiser and a destroyer, were discovered Monday near Normanby island and attacked under poor weather conditions, a headquarters communique said. Fighter planes strafed the decks of the warcraft.

Two more attacks were made on the warships among the Tobriand islands yesterday and it was there that a destroyer probably was hit.

Nine Japanese bombers and five fighters attacked the Milne Bay positions yesterday, but damage and casualties were listed as slight.

**Situation Stale**  
After Japanese forces were reported yesterday in contact with the allied defense positions north of the key mountain pass leading to Port Moresby, 50 miles to the southwest, the situation was today described as stale.

A headquarters spokesman said the area of conflict there lies at an altitude of 6,000 feet in a pass which leads from Kokoda to Port Moresby. The fighting has been on the Kokoda side of the mountains and about 2,000 feet below "The Gap", which is virtually only a trail.

In advancing to the region of the pass, the Japanese lost heavily in close fighting in which allied patrols frequently used bayonets, it was reported here.

One Australian patrol of 20 men, opposed by 300 Japanese, carried out an effective ambush with machineguns, tommy guns and rifles Sunday, and the following day another patrol attacked a Japanese post with grenades and killed six Japanese without loss.

The supply problem is particularly difficult for both the Japanese and the allied forces. Native carriers climb through steep, rugged terrain under extremely bad weather conditions to supply the allies.

New clashes were reported at

## Confesses Charge of Writing Obscene Note to President Roosevelt

Springfield, Ill., Sept. 9.—(AP)—George Alwes, 75, of Danvers, pleaded guilty in Federal court yesterday to an indictment charging him with writing a threatening and obscene letter to President Roosevelt under the pseudonym of "Communist Brat."

U. S. Judge Charles G. Briggie placed him on two years' probation.

The indictment said the letter threatened the president with death, but was so obscene that propriety forbade its being set forth in detail upon the court records.

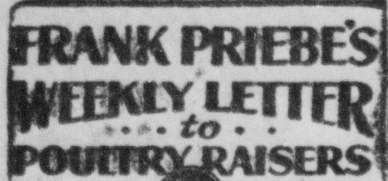

Alwes also pleaded guilty to a charge of writing to Rev. Walter Hohenstein at Bloomington a note which the indictment described as an attempt to "deprive him of his right to express himself freely in connection with his profession as a minister."

## Routine Reports Given at Supervisors' Meeting

The Lee county board of supervisors entered into the second day of their annual September meeting at the court house today. Routine reports were made and M. B. Coker of Peoria, representing the firm which conducts the annual audit of the various county offices made his report and recommendations to the board at this morning's session.

# Of Interest to Farmers

With the threat of meat rationing in the offing, restaurant men at the International Stewards' and Caterers' Association meeting jumped the gun. They asked for "Meatless Tuesdays" and said they would serve more poultry.

Newspaper reporters, interviewing housewives to get their reaction to the possibility of meatless days or even meat rationing, found they were taking it calmly: "If you can't get meat, you can't get it. I'll just feed my family more eggs—that's all."

"More chicken" . . . "More eggs" You hear it so often you can't get it out of your head. The only way I know to stop the clamor—which is getting more insistent all the time—is to raise more chickens.

If you haven't already planned to start some fall chicks, I think you should consider it, seriously. I think you should do more than consider it. I think you should start some!

**Poultry Brings Good Price**  
I'm sure you're getting more money for the springs you're selling now than you ever thought you'd get when you put out the chicks. I wouldn't be foolish enough to predict how much you could expect for poultry by the time fall chicks are ready for market, but I don't think there is any doubt that you will be well paid for your work.

When the government asked for increased production of chickens and eggs most poultry raisers simply started more chicks. But there's dynamite in attempting to increase production that way, because overcrowding leads to disease, death losses, and lower production.

Rather than starting more chicks, start chicks more often. By all means start a bunch this fall. The harvest is over. Work is a little lighter. Start the chicks now and you'll have them well along by the time the corn is ready to pick.

As badly as we need food, we can't afford to let brooder houses stand empty. With most things you raise, there is no possibility of more than one crop a year. But with chickens you can raise three or four crops.

You don't have to, of course—not in this country. But there are countries where you wouldn't be allowed to let equipment for producing food stand idle. And this war can't be won unless we are willing to do as much voluntarily as people in Axis-controlled countries are compelled to do.

I think that applies to everything—even to raising chickens.

BUY WAR BONDS  
"Make Every Market Day BOND Day"

**Grain Alcohol for War**—The 1943 demand for 190 proof alcohol is more than 300 per cent above pre-war years, estimated at 476,000,000 gallons. Two-thirds of production will come from grain. Indications are that about 136,000,000 bushels of corn, wheat, and rye will be used for alcohol. The Department of Agriculture through the Commodity Credit Corporation on January 27, 1942 offered to sell wheat for the production of alcohol. Up to April 30, about 250,000 bushels of wheat had been used by distillers for the production of alcohol. Corn also has been made available and has been used in larger quantities than wheat.

When American boys in Australia sit down to their Thanksgiving dinner the traditional American turkey will be there to greet them. Uncle Sam is making arrangements to ship plenty of the frozen birds over there in time for their Thanksgiving meal.

The familiarity of American and Canadian boys with farm machinery is providing a great aid to Great Britain. They are helping operate combines imported from the United States in harvesting a much needed bumper wheat crop.

September tire quotas are cut below August number. More concentration on transportation conservation will be needed.

The Department of Agriculture is requesting WPB to release additional welding rod material to supply farm equipment repair needs. Manufacture of repair parts is expected to be maintained near present levels. But allotment of steel for new machinery is expected to run well below this year's total. Civilian needs must give way to the war's appetite for steel; tanks come before tractors. Amount of steel that will be available for farm machinery depends partly on greater deliverance or scrap from farms.

able for farm machinery depends partly on greater deliverance or scrap from farms.

Though oil cars in twenty mid-west states are being diverted to hauling much-needed fuel oil to the Eastern seaboard, the Office of the Petroleum Coordinator assures Midwestern farmers of adequate fuel for essential needs.

**Notice to Wheat Farmers**  
Farmers who under plant their 1943 wheat allotment in order to increase their acreages of war crops next year will not suffer deductions from their AAA wheat payments for 1943, nor will their wheat acreage allotment be reduced in future years because of such diversions.

This information has been received at the Lee county AAA committee's office in Amboy from Lee Gentry, chairman of the Illinois AAA committee. Mr. Gentry's full announcement follows: Present supplies of wheat are more than sufficient for domestic needs for the next two years, whereas the need for certain other commodities—such as soybeans, flaxseed, peanuts for oil, dried beans, dried field peas, and certain feed crops—is likely to be even greater next year. Consequently every wheat farmer who can divert some wheat acreage to these emergency war crops will be making a substantial contribution. While undefined goals for the special war crops have not yet been established, it is very unlikely that more will be grown than can be used.

It should be born in mind that if no wheat whatsoever was seeded on a farm for three consecutive years, the farm would be eligible only for a new farm allotment under the provisions of the Agricultural Adjustment Act of 1938. The total of new farm allotments in any county is limited to three percent of the total wheat acreage allotment for the county.

Farmers who are now making plans for seeding winter wheat should reserve as large an acreage as possible for the needed war crops and for feed for livestock production. For example, the acreage of soybeans in the Corn Belt, flax in the Great Plains, and dry peas in the Pacific Northwest will need to be maintained or even increased in 1943. Wheat producers who have suitable land for these crops will make their greatest contribution to the war effort by substituting them for a part of the wheat allotment acreage.

## Proper Feeding Is Needed to Reach Egg Goal for '42

Proper feeding of farm poultry flocks for the rest of 1942 is necessary if poultrymen are to reach their production goal, according to H. H. Alp, extension poultry specialist of the University of Illinois College of Agriculture.

An average of nearly 1 1/2 ounces of feed and 1 1/2 ounces of water are required to produce an egg, in addition to requirements necessary for the growth and maintenance of pullets and hens. Even a small reduction in feed means sharp curtailment in egg production. It has been shown at the U. S. Department of Agriculture's Southwest Poultry Experiment Station, at Glendale, Ariz., that reducing the feed intake of one group of birds 12 1/2 per cent caused production of eggs to be reduced 30 per cent, while a group of hens that received 25 per cent less feed produced 50 per cent fewer eggs. Production of both groups was compared with a group on full feed.

"The peak of egg production has passed in most of the larger producing areas," Alp said, "but the past few months of 1942 are vitally important if our goal is to be reached."

"To continue production during the hot-weather months and also in the early fall, the farm flock operator should take every precaution in feeding. Proper feeding is always important, but never any more so than at present when laying stock of all ages should be well fed to enable them to lay at a fairly good rate while molting, and young stock should be allowed to grow as much as possible before egg production begins in order to reduce the number of small eggs."

Uncle Sam needs every egg that can be produced this year. At present requirements for 1942 for the armed forces, for domestic use, and for the allies, including the vast quantities needed for drying, plus a safe margin, amount to nearly 4 1/2 billion dozen. Of this quantity, fully 90 per cent must be produced by farm flocks, and the remainder by commercial production.

Poultry scientists have developed a number of feed mixtures which have proved their worth for use during various seasons. These have been worked out from the standpoint of utilizing the feeds available, in various localities and are obtainable through farm advisers or the university.

## Monroe Fair to Stage Races This Week-End

The Green county fair association at Monroe, Wis., are sponsoring a two day harness racing program which has attracted some of the best track stock in Wisconsin and Illinois. The meet will take place Saturday and Sunday, Sept.

tural Adjustment Act of 1938. The total of new farm allotments in any county is limited to three percent of the total wheat acreage allotment for the county.

Farmers who are now making plans for seeding winter wheat should reserve as large an acreage as possible for the needed war crops and for feed for livestock production. For example, the acreage of soybeans in the Corn Belt, flax in the Great Plains, and dry peas in the Pacific Northwest will need to be maintained or even increased in 1943. Wheat producers who have suitable land for these crops will make their greatest contribution to the war effort by substituting them for a part of the wheat allotment acreage.

12 and 13 at the Monroe track.

On Saturday the program calls for a 2:24 pace, free-for-all trot and 2:15 pacing event. The entry list closed Tuesday and every event was filled with fine stock. The 2:15 pace is the speed event on Saturday with some ten entries. Berry Hedgewood will lock horns with Ione Hart, Mary L. Castleton, Richard Wes Scott and others of like caliber.

On Sunday, the management will present to lover of harness events, a 2:15 trot, 2:24 trot and a free-for-all pacing event. William Cash heads the list in the latter with a record of 2:01 1/4. This should be one of the best events of the two days and a top liner in Wisconsin track circles this season. In the 2:24 trot, Wisconsin's great two year old trotter, Parisienne will force the competitors to go the limit to win.

An excellent program has also been arranged for the entertainment of the race goes each night featuring the WLS circus on Saturday night and the Supper Time Frolics from station WJJD on Sunday evening.

## Farm Fires Heavy Drag on Wartime Production Drive

That precaution—where there's smoke there's fire—is more important now than ever.

The reason for this is that fires on farms alone yearly kill about 3,500 persons and destroy \$100,-

000,000 worth of property in this country.

There are eight main causes of farm fires, according to E. W. Lehmann, head of the agricultural engineering department of the University of Illinois College of Agriculture. They are chimneys and flues, sparks on combustible roofs, lightning, spontaneous combustion, smoking and careless use of matches, careless use of gasoline and kerosene, defective and improperly installed stoves and furnaces, and faulty wiring and misuse of electric appliances. These cause 85 per cent of the losses from farm fires.

A chimney that becomes too hot to hold one's hand against should be carefully inspected and repaired by a reliable mason.

Properly installed and well-maintained lightning rods on farm buildings are practically 100 per

cent effective in preventing damage from lightning.

Undercured or damp hay when stored in large piles heats spontaneously. This heating may continue until the ignition temperature is reached and the hay bursts into flame. Even though a fire does not occur, heating destroys much of the feeding value. Alfalfa, clover, and soybean hays are most likely to heat severely.

Even though hay has been well cured before storage, it will heat if it is wet by rain coming from a leaky roof or by floodwaters.

Frequent examinations should be made for several weeks after hays has been stored. "Steaming," strong irritating odors and wet areas are signs of dangerous heating. When the hay is heating excessively, it should be removed from the barn, but first the heating areas should be thorough-

ly drenched with water. Provisions should be made for fighting a possible fire, as the hay may burst into flames when exposed to the air. Care should be taken not to walk directly on the hay, especially at the center of the mow, since the interior may have charred and left a sink hole. After the hay is removed from the mow, it should be transported to an open space because it may ignite later.

## HOG PROFITS

mean that you receive the maximum feeding benefits from the grain you feed. All successful livestock feeders agree that to do this you will have to supplement your grains with the proteins and minerals in which the grains are deficient so the grains will feed out to the maximum efficiency.

Our customers tell us that 30 pounds of Big Gain Mineral Stock Food will feed out 6 bushels of corn so it will produce 100 pounds of pork on dry lot without pasture or milk.

### Returned Home

Edward Schmidtman of Milwaukee, Wis., was a week end guest in the home of Mr. and Mrs. Dave Weigle. He was accompanied home by his wife who has been here the past several weeks assisting her mother, Mrs. Dave Weigle who recently submitted to an operation for appendicitis.

### Methodist Church

At the morning services Sunday the Junior choir had charge of the music. The attendance was very gratifying. Communion services were held at which eighty-five people were given the communion by the pastor, Rev. Reeves. The first of the Sunday evening services to be sponsored by the Youth Division will be held Sunday evening. These services will be every second and fourth Sunday evenings.

The W. S. C. S. has purchased two up to date Westinghouse electric roasters to be used for their church suppers. The committee appointed to purchase the roasters were: Mrs. Evelyn Shoemaker, Mrs. Vera Gross and Mrs. Marjorie Howard.

### Sunday Evening Supper

Mr. and Mrs. Raymond Wolford entertained for supper Sunday evening Mr. and Mrs. Carl Sunday and family, Miss Esther Ling, Wayne Dunseth and John Bellaza of this place; Mr. and Mrs. George Meister and son from near Ash-ton.

### Attended Golden Wedding

Mr. and Mrs. Lloyd Group, Mrs. Letha Blocher, Mr. and Mrs. Kenneth Hood were in Oregon Saturday evening where they attended the golden wedding anniversary of Mr. and Mrs. R. L. Godfrey. Mrs. Godfrey is a sister of Mrs. Blocher and will be remembered as Lilly Brown, daughter of the late Rev. and Mrs. George Brown, formerly of Washington Grove and well known in this community.

### Lutheran Church

Services in the Lutheran church will be at 8:45 Sunday morning. Sunday school at 9:30. Aid society will meet with Mrs. Arthur Schafer Thursday, Sept. 10. A good attendance is desired.

### Birthday Dinner

Mrs. Ada Peterman entertained with a six o'clock dinner Sunday evening in honor of her daughter, Miss Georgia Peterman of Chicago who was celebrating her birthday anniversary. The guests included Miss Peterman of Chicago; Miss June Dempsey of Dixon; Mr. and Mrs. Edwin Hain, Mr. and Mrs. Foster Mattern and daughter Miss Marion, Wellington Peterman, Miss Rosemary Peterman and Richard Scharpf.

### Visited in Nebraska

Mr. and Mrs. Arthur Schafer and family of this place and her parents, Mr. and Mrs. Ed Schick of Dixon enjoyed a motor trip to Nebraska where they spent the past week with relatives and friends.

### Home on Furlough

Second Lieut. Helen Yocum of Lawson General Hospital, Atlanta, Georgia, daughter of Mr. and Mrs. Clarence Yocum of Amboy, formerly of this place, visited Saturday night in the home of her sister, Mrs. Lucille Zoeller and family.

### Will Enter College

Georgia Jewett, daughter of Mrs. Lawrence Canfield of Dixon and granddaughter of George S. Ives, Sr. of this place will enter Cornell college of Mount Vernon, Iowa where she will take a course in music.

### Picnic in Oregon

Mr. and Mrs. Glenn Wagner, Maxine Beghly, Mr. and Mrs. Howard Miller, son Milton and daughter Miss Audrey and their house guest, Miss Marion Mau of West Brooklyn enjoyed a picnic Sunday at the Oregon fair grounds and attended the Oregon fair.

### Grade School Notes

The grade school registration shows a significant increase again this year, owing to the fact that several rural schools have discontinued. 100 pupils were enrolled on Monday, as follows:

Room I, grades one and two, taught by Miss Doris Howard—22.

Room II, grades three and four, taught by Miss Jeannette Meyer—21.

Room III, grades five and six, taught by Miss Maude Conlon—28.

Room IV, grades seven and eight, taught by Mrs. Beryl Fish—29.

### Farewell Supper

A farewell scramble supper was held Thursday night at Sunset Lodge at White Rock for Wayne Dunseth who has been drafted in the U. S. army. Those present were Postmaster and Mrs. C. E. Kelley, Mr. and Mrs. Frank Hatch, son Johnny and daughter

Mrs. Russell Group, Mr. and Mrs. Howard Biesecker, Mr. and Mrs. Arthur Watson, Mr. and Mrs. Robert Crawford, Mrs. Emma Duffield, Miss Esther Ling, John Vogt, Wayne Dunseth, Mr. and Mrs. Carl Sunday and daughter, Linda.

### New Programs

The Priscilla club has given out its new programs for 1942-43. They are pretty and neat. The club was organized by Mrs. Jennie Reigle in 1912. The flower is daffodil. The colors are yellow and white. Officers are as follows:

President—Mrs. A. W. Crawford.

Vice president—Mrs. Elizabeth Durkes.

Treasurer—Mrs. Marjorie Howard.

The first meeting of the new year will be a scramble dinner September 11 at the home of Mrs. Elizabeth Crawford. The committee, Mrs. Crawford, Mrs. Lois Gross, Mrs. Marjorie Howard, and Mrs. Helen Colwell.

### Personal Items

Dixon spent Labor Day in the home of his parents, Mr. and Mrs. Fred Gross at this place.

Miss Betty Shaulis returned to Waverly college at Waverly, Iowa, Tuesday to resume her studies as a sophomore.

Miss Joan Spratt returned to her home in Chicago Sunday night after a week's visit with relatives here.

The Hillside Community club picnic was held Sunday at the school house. A lovely picnic dinner was enjoyed at noon at about twenty-four folks.

### W. S. C. S.

The W. S. C. S. met on Thursday, September 3, at the Methodist church, with a good attendance of members and several visitors present. The devotional service was conducted by Miss Flora Wicker. The study topic was, "The Youth of Our Church"; the leader, Miss Dorothy Durkes.

The program was presented in the form of a panel discussion concerning the work of the forty-one educational institutions supported by the Woman's Societies of Christian Service, extending from Puerto Rico to Los Angeles and including student centers in thirteen states. These include schools among Negroes, Mexicans,

Indians and Puerto Ricans, as well as those for white students, varying from kindergartens to senior colleges and training schools for Christian workers. These schools which we are helping to support through our contributions to the annual missionary budget have these three objectives:

1. To provide adequate educational opportunity for those groups and sections where it is not otherwise supplied.

2. To develop Christian character in these young people and children, as part of a well-balanced program of education.

3. To secure trained Christian leadership for community and church life in America.

Several items of business were discussed and acted upon. It was voted to act favorably upon the "call to Methodist women" which has been sent out to all W. S. C. S. members, asking for a free-will gift of 25 cents each to help meet the needs of a world crisis in a needy world—its dangers and opportunities. It was also decided to invite to our church for an address in the near future, a friend of Rev. Reeves who is a student at Garrett Biblical Institute in Evanston. He is a native of India, here in the U. S. to add

to his Christian education through the facilities of one of our church institutions and no doubt will bring to the community a most interesting and helpful message. More particulars of this program will follow later.

It was decided to add a little more seasonal work to that already done on the church lawn and a vote was taken, whereby lawn grass seed will be provided, to be sown on the bare spots in various sections of the yard, so that next year's lawn will be even greener than this year's.

The hostess committee, Mesdames Josephine Watson, Lena Herrera, Pearl Canode, Maude Taylor and Dorothy Durkes served delightful refreshments and the meeting was adjourned to meet again in October.

### Methodist Church

The Four Freedoms are meaningful only so long as the character of a nation is strong and its efforts are dedicated to the highest ideals. In peace and in war the church through the years has been giving to these conceptions of freedom both strength and direction. It seeks to build citizens who are devoted, loyal, responsible, noble, courageous, and free. Then why not support your church

by your prayers, with your presence, and through your gifts?

We extend you a most cordial invitation to worship with us.

## A Thought for Today

Be not wise in your own conceits.—  
Romans 12:16.

Conceit may puff a man up, but never  
prop him up.—Ruskin.

## Army Is Not a Prison

All topics for thought are not capped by big  
headlines. In the day's news is an account of a  
court hearing in which a young man was charged  
with disorderly conduct and with peddling without  
a license.

The young man, perhaps on being questioned as  
to why he wasn't in the army, was quoted as say-  
ing, "Any one who joins the army is crazy."

Thereupon the judge ordered the lawless young  
fellow to join the army by September 18, or pay a  
fine.

For the sake of the army, it is to be hoped the  
young man pays the fine, and then joins the army of  
his own accord. The army is not a reform school,  
jail or penitentiary. Army service is a thing to be  
undertaken with patriotism, and to be remembered  
with pride. Imagine your son in the army, if you  
have one there, being required to serve along with a  
man "sentenced" to the army for felony or misde-  
meanor.

There has been talk of organizing a regiment  
or other unit of men from prisons, and permitting  
them to serve strictly as a unit, with no interming-  
ling of run-of-the-mine soldiers. This plan might  
work, if the unit could be controlled long enough to  
acquire some training, and if it could be transported  
to a fighting front without destroying whatever  
country it might traverse. Once in the trenches or  
on a battlefield, these disorderly guys and machine  
gun experts might give a good account of them-  
selves.

## No Man Can Do Everything

President Roosevelt deserves credit for the zeal  
with which he has tried to supervise everything con-  
nected with the prosecution of this war.

Unfortunately, utter sincerity and unswerving  
devotion are not enough to transform an almost  
pacifistic economy into the world's most powerful  
military machine.

That transformation requires the exercise of  
technical industrial skills which can be acquired only  
by operating successfully huge factories such as  
are this nation's pride.

It calls for the application of financial princi-  
ples which can be learned only by dealing success-  
fully with large-scale fiscal problems.

It involves the juggling of raw materials which  
no American ever has had to learn, but with which  
the more complicated industrial plants have had  
most experience.

It necessitates the ingenious utilization of over-  
worked transportation facilities, which brilliant

men devote their lives to attempting to master.  
It depends upon planning and training, along  
purely military lines which, in the face of such an  
enemy as Germany, can be desperately perilous un-  
less they are tempered with caution born of experi-  
ence.

In all of these things we shall fail unless we act  
with daring, vision, imagination and a large measure  
of iconoclastic scorn for tradition. But in all we  
shall fail, also, unless we draw upon sound experi-  
ence to avoid hopeless experimentation that can  
only waste time, money, materials and lives.

We need somebody to say: This never has been  
done; we do not know how to do it; but if it were  
done, it would help to win the war.

We need somebody else to say: Find out how  
it can be done, and then do it.

And we need still another somebody—a multi-  
tudinously collective somebody—to do it.

Thus far the President has insisted upon being  
the fountain-head of all authority in each of these  
subdivisions.

Mr. Roosevelt should adopt the policy of all  
successful major executives. He should delegate  
authority to the best men this country possesses.  
He should give them carte blanche, within the  
broadest of directives. He should hold them re-  
sponsible for only one thing: Results.

## Third Front Army

Householders might just as well begin prepar-  
ing for stormy days ahead. Plans for the Third  
Front army are completed, and the attack is sched-  
uled for Oct. 5.

At that time a considerable proportion of 30-  
000,000 school children is expected to begin lugging  
scrap out of the family hiding places—cellars, gar-  
rets, garages and where not. For two weeks noth-  
ing portable will be safe, and Mother may expect  
a truck to pull up at the door, at almost any mo-  
ment, for the items Sonny thinks can be spared.

Proceeds of the sale can go either to the young-  
sters in war savings stamps or to the schools, with  
credit to the salvagers. In any event, a lot of worth-  
less scrap will be put to work against Hitler.

## Modern Rangers

The name "rangers" is apt for the American  
version of the Commandos. In a war that features  
use of the most ultra-modern instruments of death  
and destruction, we have been driven back to the  
methods of stealth and man-to-man combat in which  
Rogers Rangers outdid the very Indian from whom  
they derived their methodology.

The services of Robert Rogers' backwoods mili-  
tiamen were invaluable to the Anglo-Americans dur-  
ing the Seven Years War against the French in  
North America. They accomplished feats which  
no regular troops, however skilled and courageous,  
could have achieved. That is what the modern  
Rangers will do with modern enemies.

## Glass in the Gutter

The man who left glass, nails and similar tire-  
destroyers in the gutter never could have won a po-  
pularity contest among his neighbors. Now, when  
rubber is more precious than much gold, he invites  
deserved chastisement.

But more than that, he is opening himself to  
the justifiable description of war saboteur. For tires  
have ceased to be matters solely of private concern.  
They are a major weapon against the enemy.

For patriotism, if not from common decency,  
let's keep glass out of the gutters and out of the  
streets, and give our poor, thin, irreplaceable tires  
a chance.

# News Behind THE NEWS

By PAUL MALLON

(Distributed by King Features  
Syndicate, Inc. Reproduction in  
whole or in part strictly prohib-  
ited.)

Washington, Sept. 8 — Mr.  
Roosevelt did not submit his  
wage-price program to congress  
Labor Day as planned. All he said  
to congress was (in effect):

"You repeal that obnoxious  
farm-price inflating law within  
three weeks, and allow me freely  
to move against our rising threat  
of inflation disaster, or I will put  
my program into effect, regard-  
less of your restriction".

Something happened the last  
few days before the message to  
cause a change in White House  
plans.

The president's trouble-compro-  
miser, Judge Rosenman, had sub-  
mitted to Roosevelt several rec-  
ommendations for executive ac-  
tion without congressional ap-  
proval (see column published  
August 26.) These headed up to-  
ward inauguration of an overall  
economic control board, made up  
of various government depart-  
ment chiefs, (McNutt, Henderson,  
Davis, Eccles, Nelson, Wickard.)

Roosevelt, tired of creating  
super-boards on top of failures,  
and mindful of some inner criti-  
cism, then seemed to swerve to-  
ward naming a chairman of the  
board with such strong powers  
that he could be popularly known  
as a czar over prices and wages.

For that job he possibly had  
decided upon a man, not too much  
of a laborite, or farm bloc man,  
to be suspected of favoritism in ad-  
ministering wages and prices.

Presumably he wanted someone  
who would establish the confidence  
of the country (Baruch and Leh-  
man being mentioned in most of  
the newspaper accounts, although  
some there in the names of Jus-  
tice Douglas, and other left-  
leaning new dealers who did not  
fill the requirement, or McNutt  
who is already running for presi-  
dent in 1944.)

When Roosevelt tried this pro-  
gram out on congressmen in ad-  
vance, he ran into objections,  
mainly from the farm bloc. Some  
of them, like Senator Norris of  
Nebraska spoke out publicly.

A day or two before the presi-  
dent was scheduled to speak, Nor-  
ris openly warned him congress  
would "raise hell" if he thus  
trampled on its constitutional  
prerogatives.

So the president decided to give  
them three weeks to do it the  
regular way, their way—if they  
could.

His threat to do it anyway  
October 1, implied his own doubt  
that the farm bloc would relent  
and let him do it.

No one now doubts the wisdom  
of freezing wages and prices. It  
should have been done nine  
months ago, when the war start-  
ed, as Bernard Baruch (still the  
fairest and smartest economist in  
contact with Roosevelt) then told  
the White House.

It should have been done last  
spring when the present Hender-  
son price setup was instituted by  
congress over two-thirds of the  
prices of the nation, leaving one-  
third untouched and encouraging  
farm prices to run up. The Hen-  
derson system has been a brazen  
political makeshift compromise  
with the unions and farm bloc.

The part of it that Roosevelt  
did not tell in his message, and  
the story with which the farm bloc  
men have justified themselves for  
their own selfish politics, is that  
Roosevelt was not holding down  
the unions.

His various labor boards let  
some union wages ease up high-  
er along a cost of living yard-  
stick—and in the pending General  
Motors case a labor board panel  
even went beyond the cost of liv-  
ing justification for a further  
wage increase. The farm bloc men  
said:

"You are letting the unions get  
theirs; we will get ours".

This weakness in the president's  
position still prevails in his mes-  
sage. While his presentation of  
the case against rising wages and  
prices is straightforward, and  
non-political, and his plan to act  
carries the same honest, open  
handed general tone, he did not  
say how, or how firmly, he will  
"stabilize" union wages, (sig-  
nificantly, perhaps, he does not  
use the words "fix" or "freeze" in  
this connection, but only in con-  
nection with prices.)

All he said about wages was  
that he proposes to "stabilize"  
them himself.

His program, therefore, cannot  
be analyzed yet. While his objec-  
tive is unanswerably right, the  
most important question of  
whether his program will work,  
or even whether it will be fair and  
firm can be answered only after  
it is announced.

People will look very closely,  
for the wording of the labor pro-  
visions especially, to see whether  
he will leave enough loopholes  
through which unions can edge  
their particular stipends still  
higher.

Also the character of the man  
he will appoint to do the job may  
be more revealing as to the real  
extent of his program, which is

**DR. JAMES M. DORAN**  
Washington, Sept. 8—(AP)—  
The man who directed dry law en-  
forcement three years and who  
then became a spokesman for the  
distilling industry, Dr. James M.  
Doran, died last night.

Dr. Doran was Commissioner  
of Prohibition from 1927 to 1930,  
during some of the last days of  
the life of the 18th amendment to  
the Constitution, and then was  
administrator of the Distilled  
Spirits Institute for several years.  
The institute, organized by  
distillers to self-police and de-  
fend the industry, took Dr. Doran  
as its director in December 1933,  
the month the prohibition amend-  
ment was repealed, and he often  
issued statements that repeal had  
resulted in increased federal reve-  
nues and a decline in lawlessness.

**MRS. JOHN L. LEWIS**  
Washington, Sept. 8—(AP)—  
Mrs. John L. Lewis, wife of the  
president of the United Mine  
Workers of America, died early  
today after a lingering illness.

In addition to the husband, sur-  
vivors include a son, John L.  
Lewis, Jr., a medical student, and  
a daughter, Kathryn, who is se-  
cretary-treasurer of district 50 of  
the United Mine Workers. The  
family lives in nearby Alexandria,  
Va.

Mrs. Lewis will be buried Sat-  
urday afternoon in Oak Ridge  
cemetery, Springfield, Ill.

Mrs. Lewis underwent two  
major operations at Johns Hop-  
kins hospital in Baltimore for a  
malignant ailment about six  
months ago. She was 62.

Born in Stafford, Monroe  
county, O., the daughter of a  
country doctor who subsequently  
migrated to Iowa, Mrs. Lewis was  
a school teacher in Lucas, Ia.,  
when she married John L. Lewis  
June 5, 1907.

Other survivors include these  
brothers and sisters: Mrs. C. P.  
Charrier, Boise, Idaho; Mrs. R. O.  
Miller, Jr., Springfield, Ill.; J. R.  
Bell, Arlington, Va.; F. C. Bell,  
Indianapolis, Ind., and C. H. Bell,  
Arlington, Va.

## Suburban—JAMES MURDOCK

(Telegraph Special Service)  
Oregon, Sept. 9—James Mur-  
dock, 42, partner with his father  
in a men's clothing store here,  
passed away unexpectedly at the  
home of his parents, Mr. and Mrs.  
Edward Murdock, 209 North Fifth  
street, at 2:00 o'clock Tuesday  
afternoon. He had been a suffer-  
er from asthma for some time.  
Funeral services will be held at  
the home at 2:00 o'clock Thursday  
afternoon, the Rev. Paul E. Turk,  
pastor of the Methodist church,  
officiating, and burial will be in  
Riverview cemetery.

Mr. Murdock was born in Ore-  
gon June 21, 1900 and is survived  
by his parents and a sister, Mrs.  
Donald Brooke, who lives near  
Oregon. He was preceded in  
death by a brother, George.

## CHARLES FAESSLER

Freeport, Sept. 9—Following a  
long illness Charles Faessler, 74,  
a retired Illinois Central engineer,  
passed away at his home, 317 West  
Pleasant street, at 4 o'clock Sun-  
day morning.

Funeral services were held at  
the home at 9 o'clock this morn-  
ing with a requiem mass at St.  
Mary's Catholic church at 9:30  
o'clock. Rt. Rev. C. E. Conley  
celebrated the mass and interment  
was made at Oakland.

He was born in Baden Baden,  
Germany, Aug. 5, 1868, the son of  
Rinehart F. and Ursula Faessler.  
He was brought to the United  
States at the age of 5 years, the  
family settling at Amboy. At the  
age of 24 he started working as  
a fireman for the Illinois Central  
and had served as a locomotive  
engineer from 1895 to the time of  
his retirement 14 years ago. He  
had been in ill health since retir-  
ing from active service. His run  
with the railroad company was be-  
tween Clinton and Freeport. He  
had resided here for the past 45  
years.

His marriage to Miss Catherine  
McGonigal took place at LaSalle  
Oct. 29, 11896. He is survived by  
his wife and one son, Edward. A  
son, Charles, died in 1916. One sis-  
ter survives, Miss Emma Faessler,  
Chicago. He was a member  
of the Racine Division B. of L. E.  
and of Germania of Freeport.

## K. C. Butchers Strike; No Picketing However

Kansas City, Sept. 9—(AP)—  
Six hundred butchers struck today  
at all chain stores and most in-  
dependent grocery stores but they  
kept the housewife in mind.

They threw up no picket lines  
and announced that customers  
were free to patronize the meat  
counters.

Their unanimous vote to strike,  
cast at a meeting of the amalga-  
mated meat cutters and butcher  
workers union last night, followed  
prolonged futile negotiations for a  
wage increase approximating \$5  
a week, Secretary Howard P.  
Root of the union said.

"Those who would give up es-  
sential liberty to purchase a little  
temporary safety deserve neither  
liberty nor safety."—Benjamin  
Franklin.

now being prematurely chastened  
by the headline writers as a

## Method of Making Dyes Directly From Soft Coal Is Reported to Society

Buffalo, N. Y., Sept. 9—(AP)—  
A method of making dyes direct-  
ly from soft coal was reported to-  
day to the American Chemical so-  
ciety. The new process sidesteps  
the conversion of coal into tars  
and was described as cheap, easy  
and efficient.

The paper was submitted by H.  
B. Charnbury, C. C. Wright, W.  
A. Gauger and J. R. Lotz of  
Pennsylvania State college.  
The dyes are good for silk, wool,  
cotton, linen, rayon and other syn-  
thetic fibers. They are fast in silk  
and wool to everything except  
light or bleaching. Sunlight turns  
the fabrics a shade darker, and  
the color then remains constant.

## Indict Former Illinois Mayor on Murder Charge

Springfield, Ill., Sept. 9—(AP)—  
Lawrence Roller, former mayor  
of Mechanicsburg, was indicted on  
a murder charge yesterday in the  
fatal shooting July 8 of Willie  
Herman, a grocer in the Sanga-  
mon county village of about 450.  
The shooting grew out of a dis-  
pute over Herman's occupancy of  
a house which Mayor Roller  
owned. Roller, 33, recently recov-  
ered from a bullet wound which  
he too received at the time of the  
altercation.

## DREAM COME TRUE

### CHAPTER XVII

IT happened so simply, like most  
accidents.

The bus seemed to crawl on its  
way down town that morning.  
Enid glanced at her watch again  
and again. She had thought that  
if she got to the station early  
enough she and Tom could have  
breakfast together in the station  
restaurant—and then she'd tell  
him she was willing to marry him.

And then, four blocks from  
Enid's destination, the bus hit an  
automobile. It was a minor col-  
lision, but Enid knew there would  
be time consumed in argument,  
and taking the names of wit-  
nesses. She slipped off the bus  
and started to walk.

At the first intersection she  
waited until the line of waiting  
cars passed and then, disregard-  
ing the light, started across. She  
didn't see the car coming around  
the corner until it was almost  
upon her. She threw up her arm  
to shield her face.

Enid opened her eyes and  
moved and a pain pierced her side.  
She caught her breath and whim-  
pered and a white-uniformed  
nurse came into her range of  
vision.

"What—what happened—where  
am I?"

"You were hit by a car," the  
nurse explained, "but you're going  
to be all right. You've got a  
couple of broken ribs. Don't  
worry now."

Enid digested this bit of news  
slowly as full consciousness came  
back and memory fitted pieces of  
the accident together. She re-  
membered now—the car, the  
screaming brakes, she had been  
hitting, and oh, yes—Tom.

"What time is it?" she asked  
excitedly.

"Ten o'clock."

## War Brides: Keep Up Your Own Homes

By RUTH MILLETT

Going home to live with Mama and Papa may not be the best thing for the war bride whose marriage is only a few weeks or a few months old.

It is such an obvious solution it looks like a good one—but there are drawbacks.

True, if she is under her parents' roof, her young husband can go away with his mind at rest about her. She will be well taken care of. She won't be too lonely. And he'll have the comforting knowledge that he knows just where she is—and what her life is like.

But, though the solution is easy on her husband, it may not be good for the young wife—or good for their marriage.

She will lean on her family. In all probability they will continue to boss her. She'll go right on being a daughter—when she could be getting used to the responsibility of being a wife.

**Solitary Life Has Compensation**

If she were to get a job and live alone—her life might be lonelier—but she would be preparing herself for marriage. She would have to make her own decisions and accept responsibility at cooking and housekeeping—even if she only had one or two rented rooms.

Living alone she would have time for developing new interests. Time to enjoy reading—and to learn to be contented without having other people around, a lesson that every woman has to learn if she is to be a happy homemaker.

## MISS FARLEY AND SGT. BREUNIG ARE WED IN OKLAHOMA

Announcement has been made of the marriage of Miss Anna Belle Farley, daughter of the John Farleys of Harmon, and Sgt. Joseph Breunig, son of Mrs. Kathryn Breunig of Chatsworth, Ill., which took place June 27 in the chapel at Will Rogers field, Oklahoma City. The Rev. E. W. Czeslauski, chaplain, performed the ceremony.

The bride wore white satin.

## HARMON COUPLE IS WED AT CAMP CHAPEL IN VIRGINIA

CORP. AND MRS. HUBERT CONSIDINE

Mr. and Mrs. Edward F. Schoaf of Harmon are announcing the marriage of their eldest daughter, Helen Irene, to Corp. Hubert D. Considine, eldest son of the Lloyd F. Considines of Harmon. The young couple exchanged their wedding vows Friday evening, Aug. 14, before the candlelit altar of the chapel at Camp Pickett, Virginia, with the Rev. Father Mark J. Linenberg performing the double ring ceremony. The couple's wedding date was doubly significant, marking the twenty-fourth anniversary of the bridegroom's parents.

Mr. and Mrs. Wayne Stonesifer of Sterling attended the couple. Mrs. Stonesifer is a cousin of the bridegroom.

The bride was dressed in brown marquisette, with gallant blue velvet accessories, and at her shoulder was a spray of white roses.

Her only jewelry was a gold locket and matching bracelet, a gift from the bridegroom.

Mrs. Stonesifer, as matron of honor, also wore brown marquisette with pink accessories, and a shoulder corsage of pink tea roses.

The bridegroom was in full dress uniform.

Following the ceremony, the bridal party motored to Richmond, where a wedding dinner was served at the Hotel John Marshall. The party included Corp. and Mrs. Clarence Wilson, Sgt. and Mrs. Whittier, and several other Army officers.

After touring Richmond and other points of interest in the historic vicinity, the couple returned to Camp Pickett, Monday evening, when the bridegroom resumed his duties at the post.

Mrs. Considine, who formerly attended the Harmon schools, was graduated from Dixon high school and Dixon Business college, and for the past three years, has been employed as cashier at the Walter C. Knack company.

The bridegroom, also formerly attended the Harmon schools, and was graduated from Sterling Community school. Before his induction into the Army on June 3rd, he was managing the Considine garage at Harmon, which he owns.

Mrs. Considine expects to leave late this month to join her bridegroom at Camp Blanding, Florida, where he was transferred recently.

## Former Dixon Pastor and Wife Are Wed 25 Years

Dixon friends of the Rev. and Mrs. Claude Warren of Rockton, Ill., will be interested to learn that the couple celebrated their silver wedding anniversary and the twenty-fifth anniversary of Mr. Warren's service in the ministry last Sunday with impressive ceremonies at the Old Stone church in Rockton.

Mrs. Warren is the former Miss Mary Clark, whose father, the Rev. Mr. Clark, was pastor of the Dixon Congregational church, about 1910. She was graduated from Dixon high school with the class of 1911.

Dr. Wilfred Rowell of Beloit, who preached the couple's marriage ceremony at Delavan lake, preached the anniversary sermon last Sunday. The Rev. Ernest Benson of Elgin, who baptized Mr. Warren in boyhood, offered the prayer.

Dinner was served in the church basement to about 150 friends, many of whom had traveled some distance to wish the couple well. Among the many gifts presented to the Warrens was a chest of silver from members of Mr. Warren's congregation.

The Warrens have five children, two sons and three daughters, all of whom were at home for the anniversary celebration. One son, William, is a flying instructor at Lansing, Mich., and his brother, Richard, leaves within a few days for Harvard university, Cambridge, Mass. Betty is employed in Beloit, Wis., and with her younger sisters, lives at home.

## SPANISH CLASSES

## ROCK RIVER TRAIL RIDERS ANNOUNCE FREE RIDE FOR MEMBERS ONLY, SEPT. 27

A new wrinkle in trail rides is that being planned by officers of the Rock River Trail and Horseman's association for Sunday, Sept. 27. The jaunt, the last to be sponsored by the association this fall, is to be a free ride for members only.

The association officers, who are taking pride in the claim that theirs is perhaps the only association in the state that has ever offered a free trail ride to its members, point to an outstanding year for memberships and appreciation of fine sportsmanship shown throughout the season as the reason for making the forthcoming event a complimentary one.

Sportsmen and women who are not members and desire to join the riders, may do so by paying the membership fee of one dollar.

Of particular interest to the association members is announcement that the handsome, silver-mounted western saddle that they've been admiring at previous rides this season, will be awarded as a gift to one of the riders at the end of the trail on Sept. 27.

Although the September ride concludes the 1942 season of trail jaunts for the Rock River association, several northern Illinois associations are planning a two-day ride in October from Oregon.

## LITERARY CLUB PLANS SUPPER

Members of the Twentieth Century Literary club will open their new season with a scramble supper on Thursday evening, Mrs. Russell Byers will be entertaining at 6:30 o'clock.

When the leading amateurs in the state tee off at the Mt. Hawley club in Peoria tomorrow in their qualifying rounds for the state amateur tournament, two of Dixon's best golfers and one of Polo's, will be on the firing line.

Ken Detweiler and Em Rorer will carry Dixon's colors into battle while the hopes of Polo will rest on the shoulders of Doc Markle.

This is the eighth trip down for Ken who last year was defeated by Johnny Frisina of Taylorville who later lost out to George Dawson in the final round.

Em and Doc will be pitting their skill against the state's best for the first time.

#### DAMSELS CHEER

Since athletic contests were originated, way back sometime, contestants have always played better when they had some beautiful damsel to cheer them on.

This is the theory followed by the Dixon high school when cheer leaders are chosen. Hence, in tryouts last night, Donna Hanneken, Pauline Bay, Rose Mary McLain, Avis Leer and Betty Welsen-hutter were selected to handle the megaphones.

Hanneken and Bay are old hands at the game, having acted in the same capacity last year.

These girls will be trained to "keep 'em cheering" by Miss Lesley Crooks and Miss Dorothy Herstein, faculty members.

#### TRAINING PLANE

You can't tell it from the real thing is the general description given by Army and civilian pilots of the Navy flight trainer which will be in Sterling tomorrow.

All those who wish to pilot this stationary plane, which is similar to the miniature plane used by the Army in training pilots for the air corps, will get all the thrills of actual flying while anchored safely a few feet above the ground.

The trainer, which is being brought to Sterling so would-be pilots may test their flying ability, has a 4-foot propeller which drives a 75-mile-an-hour slipstream past the pane. Regulation airplane controls enable the pilot to try sidslips, banks, loops and spins just as though he were at the controls of a modern fighting plane.

Test flights in the plane are free but the plane will be in Sterling only one day, tomorrow.

#### OREGON HERE FRIDAY

Arthur Driver, coach at Oregon high school, has just written to inform me his boys will do the best they can when they oppose the Dixon Dukes in the opening game of the season here Friday night.

Although Coach Driver has seven letter men back, he is going to find himself hard pressed for reserves as only twenty-eight boys came out for football. However, each of these candidates for places on the team has had previous experience, either on last year's varsity or the lightweight squad.

A tentative lineup which Driver sent me includes: Ends, Joe Lewandowski and George Blanchard, both lettermen; tackles, Richard Crowell, letterman, and Gordon Hewitt; guards, Richard Sincow and Austin Tomlinson, letterman; center, Bud Eakle or Jerry Weyrauch; halfbacks, Earl Cline, Tom Fruin, letterman, and Willie Martin; fullbacks, Jack Crowell and Oran Siscox, both lettermen, and quarterback, Bob Gentry.

Although this team does not have the reserve strength which Coach Lindell commands, it does have a larger number of lettermen to draw from.

John Loftus, quarterback, Bob Quilhot, fullback, Sostant Pierre, guard, and Don Edwards, tackle, are the only members of last season's regular squad at Lindell's disposal.

Floyd Egler, halfback, was injured during the first week of practice; Bob Hess, guard, also suffered an injury but might be able to play later in the season; Walter Knack, Jr., the only other returning letterman, did not come out for the team this season.

Loftus was in uniform for the first time yesterday afternoon, but is not yet wholly recovered from the leg injury he suffered this summer. He was also rusty and will probably need some more training before he can be counted on for regular work.

Bob Alexander, freshman backfield star on the lightweight squad last season, was back in the harness yesterday but he, too, will need more work to get in condition for regular play. However, his speed should be a valuable asset to the team later in the season.

In yesterday's workout, which consisted mainly of running through offensive plays, Lindell's first team was made up of Goff and Frey at ends, Edwards and Stutzel, tackles, Fish and Walters, guards, Leper, center, Meinke and Cramer, halfbacks, Quilhot, full-

Take it direct from Billy (The Kid) Southworth, the Brooklyn Dodgers don't look any different to his St. Louis Cardinals than any other club in the National league.

Now this is not to imply that the Phils resemble the Dodgers—or are even a reasonable facsimile thereof. But as he led his roaring Redbirds into their final full scale invasion of the east today—an invasion that the Cards still confidently expect will wind up with the National league pennant—Billy the Kid came right out with his battle strategy—"We play 'em as we meet 'em, game by game."

He stayed by this theory, even though the Bums boasted a gaudy three-game bulge on the Cardinals as a result of Ed Head's four-hit whitewash job to give the Dodgers a 4-0 win over the Pittsburgh Pirates yesterday. The Cardinals couldn't do a thing to stop the Brooklyn from picking up that half-a-game, simply because the schedule gave them the day off.

"But we're still confident and we're still in the fight," Southworth insisted. "We play this single game with the Giants today. Then we move into Brooklyn for those two games Friday and Saturday. And then we have the Phils and Braves after that."

Senators Outslug Red Sox Meantime, the Dodgers took advantage of the situation as fully as the fellow who suddenly finds the steak platter set right in front of him on the boarding house table. Head had the Bucs rolling over and playing dead, and when his mates gave him a run in the first frame, the whole thing was over. In fact, after the first inning, not a Pirate got as far as second base.

This was the only battle on the National league calendar, while over in the American league three games were run off, chief of which saw the Washington Senators nosing out the Boston Red Sox, 15 to 11. All told, 35 hits rattled off the Griffith stadium fences but in the end, ten walks handed out by the Sox elbows did as much damage as anything else. A second game had to be called at the end of four innings so both teams could catch a train.

The setback sank the second place Sox 9½ games behind the idle New York Yankees and left them with only 15 to play.

The St. Louis Browns put a firmer grab on the American league's third place by whipping the Detroit Tigers 4-1 with the help of a couple of Yankee cast-offs—Steve Sundra, who served up a four-hit pitching job, and Walt Judnich, who whacked his 11th homer of the year.

The Cleveland Indians and Chicago White Sox were slated for a doubleheader, but after young Ray Poat's seven-hit twirling whipped the Sox 10-0 in the opener, the second game had to be called off.

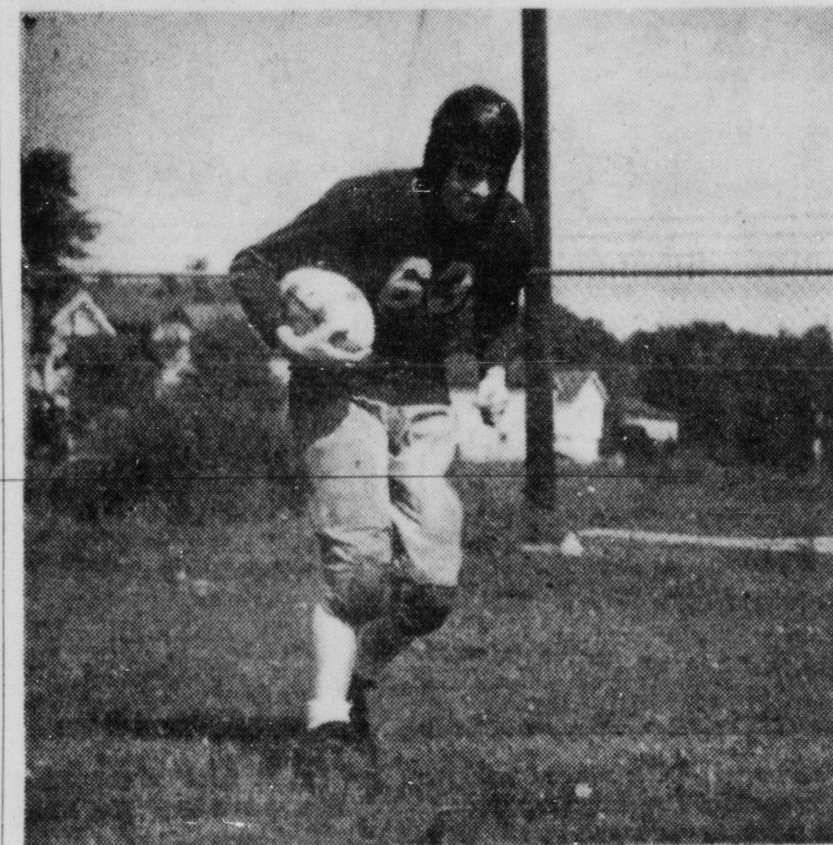

back, and Loftus, quarterback. Coach Winger will start the ball rolling Friday night when he will pit his Grays against the Blues in an inter-squad game at 6:15 o'clock. The main bout is scheduled for 8 o'clock.

TO OFFICIALS MEETING Coaches Lindell, Winger, and Sharpe, and Athletic Director Bowers are going to DeKalb tonight to attend an officials and interpretation of rules meeting.

Attending with them will be Bob Underwood, former Dixon athletic star and official at many of the games in this section.

## Announcing: Cramer at Halfback

Coach C. B. Lindell, who was getting a little fidgety as back after back slipped away from him through injury, ineptitude and what not, has calmed down a little after watching Bob Cramer star in practice sessions. This junior, a graduate from Winger's lightweight squad where he alternated between halfback and quarterback, has stood out in scrimmage as an open field runner. Weighing only 140 pounds, and standing just 5 feet, 8 inches tall, Bob's shiftness and speed compensate for his lack of weight. Although he called signals and heaved passes for the freshmen-sophomores last year, Bob will be used mainly as a halfback in the ball carrying and pass receiving departments this season.

## ETHICAL ROUGHNESS EXPECTED IN IVY LEAGUE BY LOU LITTLE

By HARRY GRAYSON  
NEA Service Sports Editor

New York, Sept. 9.—Prof. Lou Little of Columbia agrees with the rest of the coaches that college football will be more open and aggressive this fall.

Professor Little hopes the season will bring an "ethical roughness."

Will someone please describe what ethical roughness is? It sounds like a product of higher-learning.

Perhaps Professor Little only means that he trusts the Ivy Leaguers will continue to gain culture with ground.

#### Laugh Now

Whether they mean it or no, more baseball executives should talk like Larry MacPhail.

Explaining the Bobo Newsom deal, Loudspeaker MacPhail says: "Winning the pennant means a whole lot more to the players than it does to the Brooklyn club. The club can't make money in a World Series. Not in a year like this."

"The dough we put out for Newsom is dough the club won't get back."

"And don't think I made the deal for the Brooklyn players. I made it for the Brooklyn fans. They want another pennant and a world championship. They deserve both."

"Newsom cost \$45,000 in cash and players."

"All I can say is that the fans of Brooklyn are worth anything you can spend to win a pennant."

"After all, it's their dough."

Buying the best obtainable is about as close as a club president can come to giving professional baseball to the people who make it possible.

#### Has the Stuff

Freckled Ted Schroeder is reminding of a big automobile which is kept at 40 miles an hour although it can do 110.

If the outstanding player of this year's national singles would play at all times like he can turn it on when he has to, he'd quickly take rank with tennis' Budge and Vines.

Schroeder attributes his let-downs to lack of sustained concentration.

That is why Don Budge was so great. Not for a fleeting second did he loose track of the main idea.

"The Role of the Races in Our Future Civilization" is the title of a new book.

Horses or people?

## SCHMELING IS THROUGH WITH RING WARFARE

New York, Sept. 9.—(AP)—Twice within a week United States sports followers have heard of war injuries terminating athletic careers of Germans widely known in this country.

The Berlin radio yesterday announced that Max Schmeling, once the world heavyweight boxing champion, never would enter the ring again because of wounds suffered in the battle of Crete where he landed as a member of the nazi para-troopers.

Last week Walter L. Pate, non-playing captain of the United States' last pre-war Davis Cup team, told friends at the national tennis tourney he had received word from a reliable source that Baron Gottfried von Cramm, member of Germany's 1937 Davis Cup squad, had lost both feet.

## ILL. AMATEUR GOLF TOURNEY STARTS THURS.

Peoria, Ill., Sept. 9.—(AP)—The annual state amateur golf tournament will open a four day stand on Peoria's Mt. Hawley course tomorrow with a field of approximately 100 players seeking the title George Dawson, the 1941 champion will not defend.

The Chicagoan, who last year defeated Jimmy Frisina of Taylorville, 2 and 1 in the finals, now is employed in New York. However, four other former champions are expected to be in the field. They are Dawson's brother, Warren, Gus Moreland, John Holmstrom and Don Armstrong.

A 36-hole qualifying round will inaugurate play Thursday, with the 32 low scores gaining the championship bracket. Double rounds of match play will be held Friday and Saturday. The 36 hole finals are set for Sunday. Par for the Mt. Hawley course is 72.

Steve Sundra, Browns—Tossed four-hitter to down Tigers, 4-1.

## SOLDIER LADS TO FIGHT FOR FREE COME OCTOBER 12

Expect Million Dollar Gate for Brawl in Yankee Stadium

By SID FEDER

New York, Sept. 9.—(AP)—Simply for the pleasure of giving the wives and kiddies of our doughboys a million dollars, a couple of Uncle Sam's soldiers are going to climb into Yankee Stadium's ring on Columbus day to fight the hottest fistic "natural" in six years.

It is almost as sure as a bomb-sight's aim that the heavyweight championship return fight on Oct. 12 between Corp. Joe Louis, boss man of the back buttons, and Pvt. Billy Conn, who almost took the title a year ago, will hit the million-dollar jackpot for the first time since the Bomber's second bout with Max Schmeling in '38.

The memory of the fireworks they set off in their first brawl is enough to bring the customers storming back again.

Promoter Mike Jacobs is shooting at a crowd of 77,000 and a gate of \$1,200,000—with tickets scaled from \$3 to \$40—and he figures a lot of the folks who will be here for the World Series the first week in October will stick around and help jingle the cash registers.

Yet, not one nickel of it, except for minor expenses, will go to either fighter or Promoter Jacobs.

#### Both Boys Anxious

The Army, at long last, gave its official blessing to the get-together yesterday after keeping all hands in a lather of doubt about it for a dozen weeks or so. As a matter of fact, if the war department had held up the sanction as much as a week more, it would have been late to put on this super-duper outdoors around here this fall.

The simple fact that Joe and Billy are doing the almost unheard of stunt of fighting for the world heavyweight championship for nothing is about enough to have them read out of the union.

Then, too, it marks the first time in legalized nose-mashing that two soldier boys have fought for the richest prize package in the business. On top of that, it will be the first daylight fight for the big bauble since Jack Dempsey and Tom Gibbons broiled under the sun at Shelby, Mont., 19 years back. Because of dim-out regulations here, Promoter Mike plans to move it up to 3 p. m.

Conn, stationed at nearby Fort Wadsworth, and Louis, who is with the cavalry at Fort Riley, Kas., were both as steamed up as a couple of kids with a bag of candy over the prospects of putting on a re-run of their thriller.

## Small But Mighty

His football suit looks as if it might weigh more than he does—and probably does when wet—but Bill Goff is giving all comers a helluva tussle for the right end assignment on the Dixon Dukes' starting eleven. Although he weighs only 132 pounds, Bill, a junior, must be considered as a likely starter because of his aggressiveness, his love of hard work and his willingness to learn. As end on Coach Winger's lightweight team last season, Bill showed himself to be a capable pass receiver. Carrying a level head at the top of his 5 feet, 6 inch frame, Bill picks up football knowledge readily and always knows what he is to do on each particular play.

## Sports Roundup

By HUGH FULLERTON, JR.  
Wide World Sports Writer

New York, Sept. 9.—The Louis-Conn fracas looks like a money-making natural from here. . . . Because the World Series will be bringing sports fans east and if they want something to do with their time after that is over, three first-class football games are on tap here the Saturday before the Oct. 12 scrap to keep them around. . . . P. S.: We pick Louis to win, figuring Army will hurt Conn's speed more than Joe's punch.

#### Pooling Their Resources—

The Mississippi U. football squad, known for its Hapes, Kinard, Castle and Breyer brother combinations, comes up this season with five Poole boys from Gloster, Miss. . . . Ray and Barney, both ends, are brothers of Buster Poole, Ole Miss star in 1937 and more recently with the New York Giants. . . . Trying for the same jobs are brothers Flemin and Phillip, cousins of Buster, Ray and Barney. . . . Oliver, a tackle, is merely a cousin to all the others. . . . Folks, that ain't a Poole, that's an ocean.

#### Service Dept.—

When Camp Croft, S. C., appealed through the newspapers for golf balls to use on its driving range, one contribution was a single shiny pellet accompanied by this note: "Thank God I found some place for this d— golf ball. For ten years it has been in my sewing basket getting tangled with thread, tape and what have you, and every time I dropped or spilled the basket it always rolled out of my reach. So take it, and happy socking."

#### Sportsmentions—

When J. Willard Ridings, the Texas Christian U. tub-thumper, watches the Horned Frogs' opener against U. C. L. A. at Los Angeles Sept. 25, it will be the 148th consecutive game he has seen the team play. To complete that record J. Willard has traveled 65,000 miles in 13 seasons—which is a lot of riding. . . . Dr. Sam Morris, the West Virginia football team's physician, is a training camp casualty. He slipped on a flagstone and busted an arm. . . . and after Mike Ryan, Idaho's veteran track coach, had spent a few days at the St. Mary's pre-flight school he felt so lively he went out to do a bit of running. After three laps he pulled a tendon. . . . And Mike had only spent years telling boys how to avoid such mishaps.

## WEST ARMY TEAM FAVORED TO WHIP PRO LIONS TONITE

Soldiers Will Attempt to Run Over Opponents With Kimbrough

Detroit, Sept. 9.—(AP)—Major Wallace Wade, never overly optimistic, says his Western Army All Stars are definitely not a great team, but most observers believe they are good enough to whip the Detroit Lions tonight and seize the edge in the charity series with National football league clubs.

Wade said he would stick pretty much to the lineup that started Sunday's triumph at Denver over the Chicago Cardinals, which matched an earlier defeat to the Washington Redskins at Los Angeles and then added:

"This isn't a great team, you know, and never will be. Why? It seems to be that football is secondary to these boys, just as it should be."

With big John Kimbrough in a key assignment, the soldiers will attempt to run over the Detroiters, who will depend largely on an aerial attack. Both clubs seemingly have that payoff punch, and that also has paid off at the box office. A sellout of 24,000 seats at University of Detroit stadium is assured under favorable weather conditions. Net proceeds are earmarked for Army Emergency Relief.

The Lions will start two recruits, end Larry Knorr of Dayton and fullback John Polanski of Wake Forest.

It's the Old Army Game

Comrades apply "hot foot," favorite sport of Army pranksters, to sleeping buddy. Discipline is relaxed when U. S. Army travels.

Plywood Plane Spreads Its Wings

Even the Army has to save on strategic metals these days. The above plane, developed by the Ryan Aeronautical Co., San Diego, Calif., is a new plastic-bonded plywood model for military training. Metals account for less than 2 per cent of the plane's total weight.

Happy Ex-Warriors

Italian soldiers, apparently happy at having been taken captive, enjoy meal of bully beef and crackers at British prison camp behind desert battle lines. (Passed by censor.)

Chicago Mayor Names Five Judges to Panel

Chicago, Sept. 9—(AP)—A panel of five prominent jurists has been appointed by Mayor Edward J. Kelley to review the city civil service commission's recent report clearing four policemen of charges involving alleged dereliction of duty.

The police officers belonged to the now defunct morals division of the Chicago police department. The mayor's decision to have the commission's findings reviewed followed the Chicago Crime Commission's allegation that the civil service commission's report was a "whitewash".

The policemen were charged with failure to enforce gambling laws, and were cleared after an investigation in which evidence was presented by assistants of State's Attorney Thomas J. Courtney.

**LEGAL NOTICE**  
Trustee's Sale of Real Estate  
State of Illinois, County of Lee, ss.  
In the Circuit Court of Lee County.  
George W. Swartz, plaintiff vs. C. B. Swartz, et als.  
In Chancery No. 1957, for confirmation of trust.

Public notice is hereby given that by virtue of a decree in Chancery of the Circuit Court of Lee County, Illinois, made and entered of record on the 10th day of April, A. D. 1942, in the above entitled cause, wherein the said George W. Swartz was confirmed as Trustee and authorized and directed to proceed with the sale of the real estate described below, the said George W. Swartz, Trustee, as aforesaid, will on Wednesday the 30th day of September, A. D. 1942, at the hour of two o'clock in the afternoon at the dwelling house on the premises hereinafter described, sell at public auction to the highest and best bidder the following described real estate in said decree mentioned, to-wit:

The West Half of the Southwest Quarter of Section Fifteen and the Southeast quarter of the southwest quarter and the southwest quarter of the southeast quarter of Section Sixteen, all in Township Twenty, North, Range Eight, East of the 4th P. M. in Lee County, Illinois.

Terms of Sale: Fifteen per cent (15%) of the purchase price to be paid in cash on the day of sale and the balance of the purchase price in cash upon the approval of sale by the court and the tender of a deed for the premises, Jan. 1, 1943. Possession to be given Feb. 1, 1943. Said premises will be sold free and clear of all taxes, except taxes thereon for the year 1943. Abstract of title furnished to the purchaser.

Dated at Dixon, Illinois, this 8th day of September, A. D. 1942.  
George W. Swartz, Trustee.  
Sept. 9, 16, 23, 1942

## Aleutian Earthquake Recorded Last Night

Weston, Mass., Sept. 9.—(AP)—An earthquake of moderate intensity, apparently in the Aleutian islands, was recorded last night on the Weston college seismograph.  
Rev. Daniel Linehan, seismologist, said the quake, which registered at 3:55.24 p. m. (CWT), was approximately 4,100 miles northwest of Boston, which would place it "somewhere in the Aleutians."

**Fred E. Foiles**  
Fred Eugene Foiles, son of Mayetta Burdock and Charles Henry Foiles, was born on the Foiles homestead northeast of Rollo, April 11, 1866. He died August 23, 1942 at the age of 76 years, four months and 12 days.

He had four brothers, Charles and Edward, who preceded him in death, and Harris of Whitewater, Wisconsin, and Leroy of DeKalb, and one sister, Mrs. Helen Baker of LaCrosse, Kansas.

Mr. Foiles spent all his life on the home farm except two years when a young man at Zeigler, Iowa and three and one-half years at Paw Paw.

Fifty years ago he was united in marriage to Mrs. May Bell Heslop. To this union were born three children: Leon, Lucille and William. Lucille died in 1918 and Metta Heslop, his step-daughter, in 1906. His wife passed away two years ago.

Mr. Foiles was always active in public affairs. He was director of the public schools for a number of terms. He served as constable for three terms and later was justice of the peace for several years. He served in these offices because he was a firm believer in justice for all. He leaves to mourn his passing his sister, Helen Baker of LaCrosse, Kansas; two brothers, Harry Foiles of Whitewater, Wisconsin; Leroy Foiles of DeKalb; two sons, Leon and William, and six grandchildren.

Funeral services were held last Wednesday afternoon at the Rollo Congregational church with the Rev. William Dupree officiating and burial was at the Wyoming cemetery at Paw Paw.

## Rural Schools

All the rural schools in this locality opened the 1942-1943 term Monday, Aug. 31. The school houses and yards have been put in readiness and the work started immediately. The teachers and schools of Wyoming and Willow Creek are listed as follows:

- Helen Volkert—Radley.
- Agnes Truckenbrod—Cyclone.
- Anna Miller—Cottage Hill.
- Marie Beemer—Jonesville.
- Rachel Barth—South Paw Paw.
- Ruby Craddock—Miller.
- Bertha Bresson—Town House.
- Loretta Wells—Moffatt.
- Jeanette Fleming—Howlett.
- Phyllis Mullins—Bird.
- Oria Nangle—Hillson.

## Grange

The Grange held their regular meeting Friday evening and a large crowd was in attendance. There were five new members taken into the lodge and they are: Mr. and Mrs. Theodore Etzbach, Mr. and Mrs. Edward

Pfiefer and Fred Etzbach. The members draped the charter honoring Mrs. George McBride who passed away recently. After this was finished a short program was presented with different members reading several articles from the National Master. Several musical selections were then presented to round out and entertaining program. Mrs. Frank Ambler then displayed her luncheon cloth, designed and made from something that had been used in some way. This contest is proving to be very interesting and several very beautiful articles have been shown. State Master Eckert and his wife are making their appearance here September 23. This will be an open meeting and further information about his being here will appear in this column a little later.

## Home Bureau

Mrs. Lyle Foster entertained the Home Bureau members at her home Friday afternoon for their regular meeting. The usual business transactions took place with Miss Marian Simpson of Amboy, home advisor, giving the lesson on "Nutrition." The officers for the Wyoming unit are: Mrs. Carl Rosenkrans, chairman; Mrs. Jack Hannert, vice chairman, and Mrs. H. C. Poltsch, secretary. After the business meeting and social hour, the hostess served delicious refreshments to the group.

## Picnic Dinner

A large group of friends and relatives gathered at the Roy Smith home at Sycamore for a delicious picnic dinner. The afternoon was spent in the usual social manner.

Those present to enjoy the picnic dinner and visiting were: Mrs. Leda Niebergall and daughter Joy of Sycamore, Mr. and Mrs. Howard Yenerich and daughter of Earlville, Mr. and Mrs. Robert Grove and daughter Bonnie Mae of Batavia, Mr. and Mrs. Raymond Willard and daughter Gayle Grace and Owen Cornell of Paw Paw.

The members of the G. G. G. class of the Baptist church gathered at the home of Mrs. Della Smith Wednesday afternoon for a delicious 1:00 o'clock pot luck dinner. A short business meeting was then held with Mrs. Fannie Tarr having charge of the devotionals. An informal program was then presented with the remainder of the afternoon spent in visiting. A delightful afternoon was reported by everyone present.

## Someone You Know Writes About the USO

August 25, 1942

Dear Mayor Slothower:

I am sure the job of raising \$4,500 in Dixon for the USO has been placed in very capable hands and that the campaign will be a very successful one. I will be more than glad to help by explaining what the USO means to the average soldier and to me.

Upon arrival at the better Air Fields or Army Camps throughout the United States, the soldier is amazed to find that one of the largest buildings on the field or in the camp is the Service Club.

His first visit after duty hours usually is to the Service Club. Upon walking into the club he finds any number of telephone booths for soldiers only, from which he may talk in private to his immediate relatives or friends in any part of the country.

In the outer lobby usually is found a checking stand for one's outer garments. During the extremely hot weather when the temperature is around 100 degrees, he can get relief at the club which is usually air-conditioned.

The average USO building includes a restaurant or cafeteria where only the best of foods are served, also a letter writing section with indirect lighting desk lamps and free stationery.

It also includes a large auditorium where name bands appear on nightly and Sunday matinee programs, along with various other types of free entertainment including singing, boxing, picture shows, etc.

The Service Club usually affords an up-to-date Library and large Reception Room where soldiers can meet and visit with relatives and friends. Overnight quarters are available for immediate relatives and friends of the soldier if he cannot be located at once.

The soldier is at ease at all times in the USO building and he is made to feel quite at home as he may join his own religious group under able leadership for games and various types of entertainment.

I am sorry to say that at the present time we do not have a USO building here on the post, but I am sure that it is the wish of every soldier here on the field that the government take immediate steps to erect one in the very near future.

In my opinion, the United Service Organization is a very worthy one and should merit the approval and support of the public.

A soldier made happy is a good way to help win this war.

HELP KEEP 'EM FLYING!

Sincerely yours,

## WAKE UP YOUR LIVER BILE

Without Calomel—And You'll Jump Out of Bed in the Morning

The liver should pour 2 pints of bile juices into your bowels every day. If this bile is not flowing freely, your food may not digest. It may just decay in the bowels. Then gas builds up your stomach. You get constipated. You feel sour, sunk and the world looks lousy.

It takes those good, old Carter's Little Liver Pills to get these 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Take as directed. Effective in making bile flow freely. Ask for Carter's Little Liver Pills. 10c and 25c.

## Lee County WCTU Convention to Be Held in Dixon

The forty-eighth annual convention of the Lee County Women's Christian Temperance Union will be held in the First Methodist church of Dixon, Friday, September 18.

Mrs. Anna Marden DeYo of Evanston, corresponding secretary of the National W. C. T. U., will be guest speaker.

In issuing the call for the sixty-eighth annual convention of the National W. C. T. U. to meet in Birmingham, Alabama, Oct. 2-6, 1942 the official board of the organization makes this pronouncement:

The world is distressed and troubled; wars are raging and others seem imminent; evils wax bold and defiant.

No convention in the sixty-eight years has faced a more serious world and national situation. The legalized liquor traffic, the horrors of World War present problems which have nationwide effect, and representatives from every state should assist in their consideration.

The Woman's Christian Temperance Union must realize that it is a body representing a great moral force in this nation which now faces these serious problems. Let us meet in council to seek Divine guidance in determining what part this organization should take in contributing to the solution of these problems.

Let us pray that the convention may bring us vision to plan for the work of the W. C. T. U. in its twin objectives—Total abstinence for the individual and Prohibition of the liquor traffic—and to see clearly the path God would have us follow at this time, individually and as a great body of women who seek to know and to do His will.

May this convention be notable because of the felt presence of the Holy Spirit and His assurance of vision, grace, and strength for the year to come.—Union Signal.

Illinois White-Ribboners will be

going to Aurora for their sixty-eighth convention to be held in the First Methodist church, Oct. 16-19. The vice president of the National W. C. T. U., Mrs. D. Leigh Colvin, New York City, will be guest speaker.

# THOUSANDS OF MOTORISTS ADOPT NEW WARTIME METHOD OF TIRE SWITCHING!

Based on the fact that tire wear varies on each wheel

THIS GETS 38% WEAR

THIS GETS 19% WEAR

THIS GETS 29% WEAR

THIS GETS 14% WEAR

"Gauge Method" of Standard Oil Dealers puts each tire where it can give most service... gets longest life from each set!

● TIRE SWITCHING is a common sense practice at any time. Now it's vitally important. It's the very basis of longest life for your set of tires. For no two tires will wear at the same rate on your car, and your hope is to keep them all in service. But do you know when to switch tires... and to which position?

Dealers' Tire Mileage Gauge. Then he will place each tire where it will give the most service. Have this repeated every 2500 to 5000 miles (older tires at 2500) to get maximum mileage from the set.
